

PULSATION DAMPENERS

PULSATION DAMPENER

Pulsation Dampeners

- Metallic and Plastic Design
- 3/8, 1/2, 3/4, 1, 1-1/2, 2, 3 Inch Sizes Available
- Automatic Self-Charging and Self-Venting
- Max Pressure 120 PSI (8.2 bar)
- Maximum Operating Temperature
 - ~ Polyethylene 158°F (70°C)
 - ~ PTFE 248°F (120°C)
 - ~ Metal 248°F (120°C)

OEMS

OIL & GAS / REFINERY

PAINT & COATING

ALL-FLO is committed to the pursuit of designing and manufacturing the highest quality product available to industry. Since the beginning in 1986, All-Flo engineers have used their extensive knowledge of today's engineered materials, advanced air system logic and manufacturing techniques to develop the superior group of lube-free, air-operated diaphragm pumps found in this catalog. Every pump is performance engineered and quality built to provide trouble-free service under the toughest conditions.
